

KAYRA BULBUL

Data Science Student | Data/Software Engineer

+61407338877 | kayra19206@gmail.com | [LinkedIn](#) | [GitHub](#) | [Website](#) | Melbourne VIC

RELEVANT EXPERIENCE

Deloitte Australia Virtual Experience Program (Forage)

- Dec 2025
- Completed a forensic data analysis simulation
 - Built Tableau dashboard to identify fraud indicators
 - Presented insights accompanied by actionable business recommendations

PROJECTS

SQL Data Warehouse [GitHub](#)

- Feb 2026
- Built a SQL Server data warehouse ingesting **116,300** rows through ETL pipelines
 - Designed Medallion architecture with bronze, silver, gold layers

NSW Crime RAG Chatbot [GitHub](#)

- Oct 2025
- Python, LangChain, OpenAI embeddings, Ollama
 - Indexed NSW crime reports for question answering with retrieval
 - Used text-embedding-3-small and chunking with overlap
 - Achieved **0.68** Effectiveness, **0.98** Faithfulness, **0.65** Source Attribution. Overall score **0.8**

House Price Prediction [GitHub](#)

- Jul 2025
- Python, Scikit-learn
 - Built baseline **Linear Regression** and **Random Forest** models
 - Achieved MAE **191,711**, RMSE **305,005**, and R^2 **0.76** scores

Asteroids Game [GitHub](#)

- Dec 2025
- Built an asteroids clone from scratch using Pygame
 - Built around OOP principles such as **inheritance** and **polymorphism**
 - Included a comprehensive README on how to play and install

CLI Pokedex [GitHub](#)

- May 2026
- TypeScript, Node.js, PokeAPI
 - A command-line Pokedex built in TypeScript and Node.js. Explore the Pokemon world, catch Pokemon, and inspect your collection all from the terminal.
 - Uses Async/await to fetch data from the a publically available API.

PERSONAL SUMMARY

Third-year Data Science student specialising in Enterprise Systems Development with hands-on experience in SQL warehouses, ETL pipelines, and retrieval-based systems.

SKILLS

Languages	
Python	SQL
Java	Scala
JavaScript	TypeScript
Data Engineering & Cloud	
PySpark	Airflow
Snowflake	Azure
SQL Server	PostgreSQL
ETL/ELT Pipelines	NoSQL
Tools	
Docker	Git
GitHub	Tableau
Power BI	

CERTIFICATIONS

- Data Engineer**
[DataCamp](#)
- Power BI for Beginners**
[Simplilearn](#)

EDUCATION

Bachelor of Data Science
RMIT University **Expected Jul 2027**
Major: Enterprise Systems Development
Melbourne, Australia

Relevant Coursework
The Data Science Professional, Advanced Programming in Data Science, Case Studies in Data Science, Foundations of AI, Big Data Processing, Data Visualisation & Communication, Algorithms and Analysis, Full Stack Development
